REPORT OF SUPERINDENDENT OF SCHOOLS

To the School Board of Hooksett:

My sixth annual report deals chiefly with the staff of teachers, average costs per pupil, special activities, buildings and equipment.

Staff of Teachers

The interest manifested by your teachers in professional improvement is highly commendable. From the twelve teachers in your schools, three attended the 1938 Summer Session at Plymouth Normal School and one at Boston University. During the school year over one-half of the staff have completed Harvard-Boston University extension courses given in either Concord or Boston.

I am pleased to report no changes in your staff of teachers since my last annual report.

Average Costs Per Pupil

In comparison with the average cost per pupil in the elementary schools of Hooksett, which for the year ending in June, 1938, was \$56.74, some of the following averages computed by schools for the same fiscal year are significant.

	Hooksett Schools:					Hackett

In the Village School instruction in music is given daily in all grades. While in the other four schools with a total average membership of 204 pupils there is little or no organized instruction in this subject. It is to be hoped that the time is not far distant when a trained supervisor of music may be employed to give instruction and to assist the teachers in all the schools.

The average cost per pupil for instruction only in the public high schools of the state for the year ending in June, 1938, was \$79.17. This is the legal rate of tuition now paid Pembroke Academy, where you have twenty-two Hooksett pupils enrolled. The actual per pupil cost of instruction in Pembroke Academy for the same year was \$87.36.

Contracts for high school instruction at \$100. per pupil have been continued with Concord and Manchester, where Hooksett has enrolled eight and fifty-four pupils respectively.

Special Activities

Among teams from six towns, Hooksett won first place in the annual spelling contest held at Raymond. Hooksett was represented by Robert Lindh, Grade VIII, and Gloria Lyons, Grade VI, of the Lincoln School, and Eva Alexander, Grade IV of Martin's School. The Team score was 298 out of a possible 300.

A class of thirty-eight pupils was graduated from the Eighth Grade in June. The guest speaker was Miss Phila M. Griffin, Elementary School Agent from the State Board of Education. In the Stanford Achievement Test, given as the final examination, this class attained a median score of 97 compared with a median score of 94 for one hundred ten grammar school graduates in the Union.

At the State round-up, held in Concord on October 22, the 4-H Club of the Neal School was awarded one of the three state banners. This was in recognition of the excellent record made by this Club under the leadership of Mrs. Heath. Since it has been impossible to provide practical arts work for the boys and girls in the several schools, club activities of this type meet a definite need.

On the evening of October twenty-fifth a branch of the State Congress of Parent-Teacher Organizations was formed by the parents, teacher, and friends of the Hackett

Hill School. Mrs. Andrew J. Ayer of Keene, who is president of the State Congress, was the chief speaker. The organization fosters more intimate cooperation between the home and the school, and emphasizes the need for intelligent care and training of the pre-school child.

The purchase by Hooksett in conjunction with the other districts of this Union of a *Keystone* motion picture projector and "daylight" screen for use in their schools makes available a wealth of subjects best presented through visual education. Free films representing history, geography, and science are loaned to schools by our State Board of Education. Over a thousand other films, including literature and the latest in travel and invention, are procurable for a small rental fee. This equipment is so simple that it may be operated by a teacher or an older pupil.

Buildings and Equipment

With the exception of shingles torn from the roof of Village School and the loss of one chimney at Martin's and of several trees at Lincoln Park, the gale of September twenty-first did slight damage to school property.

Much repainting was done during the summer. This included the outside of the Martin's School, and both outside and inside repainting of the Lincoln and Hackett Hill Schools.

The cement floor on the large basement playroom at the Village was surfaced with EN-DUR Carborundum Concrete Coating. This not only waterproofs the cement, but prevents dusting and the consequent tracking of floors in the corridors and classrooms above.

In the primary room of the Lincoln School a portion of the blackboards were replaced by new ones and provision made for an additional entrance to the coatroom.

During January a survey was made with a "Light-Meter" to determine the intensity of natural and artificial light in the various schoolrooms. The distribution and intensity of light in the Village School is excellent. At Martin's and Neal it is adequate for the number of children occupying these rooms. At Lincoln it was found insufficient to prevent eye-strain even when the sun was shining outside. In all these rooms pupils were reading with a light intensity of only 8 candle-foot, where at least

15 candle-foot are required to prevent eye-strain. The present lighting fixtures should be replaced by diffusion shades containing lights of greater power.

It is hoped that electricity will soon be available for use in the Hackett Hill School. The enrollment is so large that a number of children are necessarily seated at a distance from the windows. Serious eye strain is now unavoidable.

In conclusion the Superintendent wishes to commend the policy of the School Board in making permanent improvements wherever these add to better health and instruction and are obtainable with the funds available.

This year both the per cent. of attendance and the per cent. of promotions was 96.2, a slight improvement over the record of last year. A reduction in the average number of tardinesses per pupil from .9 to .4 and the fact that the number of pupils having perfect attendance advanced from 44 to 63 reflects credit upon pupils, teachers, parents, and transportation drivers.

Respectfully submitted,

GEORGE H. HARMON,
Superintendent.
